

AFFIDAVIT OF Carlos Luna

I, Carlos Luna under oath and penalty of perjury, state as follows:

1. My name is Carlos Luna, my date of birth is [REDACTED], I live in the state of Arizona.
 2. In 1991 I lived at 807 E. Empire Street, Bloomington, Illinois, I was 14 years old.
 3. On March 31, 1991, I was at home in my bedroom, in the north west corner of the house.
 4. Approximately at 7:30 pm I looked out of my bedroom window, I observed a male white, approximately 5'11, thin build, dark brown hair, wearing a black baseball cap, a black trench coat, and blue jeans.
 5. I observed he opened the door of the gas station and walked
- CL

east along the gas station to the end of the building then turned north and ran towards the alley. I lost sight of him at this point. I also observed that he had something under his right arm. I am not able to describe what he was carrying.

6 I do not recall how much time expired from my observation to when the police arrived.

7. It was about 1 1/2 hours before the police came to interview the neighbors. I spoke to the police at this time with my ^{of nephew} ~~brother~~ Juan Luna Junior. I told the police what I had observed.

8 Several days later I was contacted by the Bloomington Police Department to do a line up & make sketches of the subject I observed.

9. I did a lineup at this time and chose the person who was number 6. He was the person who best fit the description of who I originally observed. At 14 years of age and at a distance of about 200 feet I can not say that I am sure that Jamie Snow is the person who I observed.

10. In August, 2000 a Bloomington Police Detective came to Phoenix to interview me and I was told that it was a deposition, this was recorded.

11. In January, 2001 I did not know that the Susan Claycomb trial and the Jamie Snow.

12. At the Jamie Snow trial I observed Jamie sitting at the defense table wearing shackles. I know he was the defendant, he was not

exactly what I had observed
but he was similar to this
person

13 As a 14 year old I thought
the police had caught the
right person, because of
this I identified Jamie Snow.

14 I am not sure that I
identified the correct person.
I can not be sure from a
distance of 200 feet that
I could identify his face

This affidavit is true and correct
to the best of my knowledge.
No promises or threats were
made in exchange. IF called
to testify, I could do so
competently and would testify
consistent with this affidavit
Dated January, 24, 2010
