Mr. Snow

I pray that you are doing well and that your faith is holding you strong. I also pray that your love for your family and their love for you continues to give you the will to carry on with life. I pray that God takes you home with your family where you belong.

Mr. Snow the information you sent me was like opening to say the least and shocking to say the least now I have not heard the tape I made with Katy and Barbes but from what I read of my testimony and Martiney's testimony it is obvious he did not see anyone in the Clark Station parking lot!

I have always questioned how he saw someone when I did not. I had always heard he had seen someone in the lot. I had never talked with him nor had I ever read any statements made by Martiney. The information you sent me is the first time I have been

McLEAN COUNTY  
JAN 9 - 2008  
CIRCUIT CLERK

2111  
able to directly compare what he and I had to say.

you are correct I did not see anyone inside the Clark station nor did I see anyone backing out of the station, nor did I see Martinez come face to face with anyone in the parking lot. (I did see Martinez walk toward the station after he paused to look back at his car there was no one around him) \*

From reviewing my testimony I see now how the (SA Ms. Griffin) avoided asking me if Martinez could have come face to face with the suspect without me seeing the same I also noticed how she made a big deal over me talking with dispatch the license plate. Nor did Mr. Piel ask me about that situation the situation with the dispatcher did not draw my attention away from the station and Martinez long enough to miss someone coming out of the station and coming face to face with Martinez

Another thing to keep in mind  
I did not speak to Martinez before  
he got in his car and left the lot.  
I spoke to him after he returned to his  
driveway. I did not tell him to  
leave the lot.

Mr. Snow have your investigator  
come talk with me. Skip going  
through the lawyer. Have Judge  
Bernardi set up a private meeting between  
your investigator and me if the  
investigator is not allowed to see me  
on his/her own.

I am shocked the judge in your  
case actually allowed identification  
of you by Martinez to be used in a  
trial. What a pile of bullshit. I know my  
opinion does you little good but wow.

By the way I reviewed your letter on Sept. 26<sup>th</sup>  
Sorry it took me a few days to review it  
all plus no mail going out on weekend  
I look forward to meeting your investigator.  
May God be with you.  
Jeffery Peto
